***Drawings***

The drawings were received on 9/8/2004. These drawings are approved.

***Allowable Subject Matter***

Claims 1-17 are allowed.

The following is an examiner's statement of reasons for allowance: Lomp et al (US 5,796,776) discloses, in figure 17, a plurality of delay circuits in element 1920. the output of each delay is input to a desreader 1901-1911. The outputs of the despreaders are input to adder 1921. However, Lomp does not disclose a first sum-and-accumulate circuit for adding only the first despread result and the second despread result to produce a first summed result as stated in claims 1-17. Lomp (US 6,330,272) and Hamada et al (US 6,359,875) disclose similar circuits as Lomp et al (US 5,796,776) in figures 5 and 3 respectively. However, these circuits do not cure the deficiencies of Lomp et al (US 5,796,776).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
